Subject: Microsoft Settlement

Please get on with the settlement process. There is no reason to prolong an investigation that has already been concluded.

Microsoft is experiencing the same downturn in fortunes as any other software company and will forever be subject to the likes and dislikes of the marketplace without regard to size of company and its market share.

Leave them alone!

Let those with new ideas and processes innovate and create...marketplace advantage is available to anyone offering something better than the competition. And the ultimate judge of something better...the marketplace.

Please, quickly and without fear, rule in favor of settlement.
